## OUR PROCESS

---

**Quality, Craftsmanship &  
Customer Service**

### DESIGN MANAGEMENT & BUDGETING

Our design build program, created by President Jamison Howard, intentionally guides clients through the process of building a home that exceeds expectations while respecting budgets.

### INTERIOR DESIGN SELECTION & COORDINATION

Work with our in-house Interior Designer to create a home that is uniquely yours. They focuses on the status, goals, budget and deadline of each project, guiding you through every decision that will help bring your custom dream home to life.

### CUSTOM HOMES BUILT WITH INTEGRITY

We pride ourselves on the enduring quality and workmanship of every home we build. Through our builder/client/architect collaboration, your ideas will develop into a home that is uniquely yours with high quality finishes - ultimately making a better finished product.

As part of our commitment to building with integrity, each home is backed with a one year workmanship warranty and an eight year structural warranty.

## OUR STORY

---

At Max Crosby Construction, building a relationship with our clients is as important as building their custom homes. We consider it our honor and duty to efficiently construct homes of unmatched quality by first defining and then exceeding our clients' expectations. Our streamlined process is designed to guide our clients through each and every step, while ensuring a custom home build experience free of surprises like unexpected delays and costs.

*"We have built three custom homes with Jamison and would not consider any other builder."*

*"One characteristic that separates Jamison from many other builders is his integrity and commitment to standing behind his work."*

*"When building with Jamison, you don't get treated as just another business client, but like a good friend."*

*- Paul and Gail Quinlan, 3 time clients*
